NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Government are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agen-cy of their own citizens, and we believe the republicanform of our Government to be an object of fear and dis like to the advocates of monarchy in Europe, and for tha reason, if for some other, in order to preserve our institu-tions pure and unpolluted, we are imperatively called upon to administer our peculiar system tree of all foreign influence and interference. By admitting the stranger indiscriminately to the exercise of those high attributet which constitute the rights of the native born Amerikan citizen, we weaken the attachment of the native, and game naught but the sordid allegiance of the foreigner. The rights of the American, which he holds under the Consti tution of the Revolution, and exercised by him as the glo rious prerogative of his birth, are calculated to stimulat to action, condense to strength, and cement in sentiment

and patriotic sympathy.

Basing, then, the right and duty to confederate on these high truths, we profess no other object than the promotion of our native country in all the walks of private honor public credit, and national independence; and therefore we maintain the right, in its most extended form, of th native born American, and he only, to exercise the various duties incident to the ramifications of the laws, exe culive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great end, we shall advocate the entire repeal of the naturalization law by Congress. Aware that the Constitution for bids, and even if it did not, we have no wish to establish bids, and even if it did not, we have no wish to establish ex post facto laws; the action we seek with regard to the laws of naturalization, is intended to act in a prospective character. W-shall advocate equal liberty to all who were born equally free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these generic principles of the property of the content of the second of the content of the second of the content of the second ciples, we further hold that, to be a permanent people, we must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and doctrines introduced by foreign paupers and European political adventurers. From Kings our gallant forefathers won their liberties—the slaves of Kings shall not win them back

Religiously entertaining these sentiments, we as so lemnly believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of the clear sighted apostles of freedom, when danger threatens from every ship that floats on the ocean to our shores; when every wind that blows wasts the ragged paupers to our cities, bearing in their own persons and characters the elements of degradation and disorder. To prevent these evils, we are now called upon to unite our energies To fight over this great moral revolution, the shadow our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION. First. We bind ourselves to co-operate, by all lawfu

means, with our fellow native citizens in the United States to procure a repeal of the naturalization law. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State

Third. That we will not hold him guiltless of his country's wrong who, having the power, shall place a foreigner in office while there is a competent native willing to accept. Fourth. That we will not, in any form or manner, con

nect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the cause of any politician or party whatsoever, but will ex-clusively advocate, stand to, and be a separate and independent party of native Americans, for the cause of the country, and upon the principles as set forth in the above preamble and these articles.

Fifth. That we will not, in any manner whatever, con-

nect ourselves, or be connected, with any religious sect or denomination: leaving every creed to its own strength, and every man untrammelled in his own faith; adhering for ourselves, to the sole cause of the natives, the establishment of a national character, and the perpetuity of our institutions, through the means of our own country

men.
Sixth. That this Association shall be connected with Sixth. That this Association shall be connected with and form a part of such other societies throughout the United States as may now or hereafter be established on the principles of our political creed.

Seventh. That this Association shall be styled the

"Native American Association of the United States." Eighth. That the officers shall consist of a President, Vice President, Council of Three, Corresponding Secretary, Recording Secretary, a Committee on Addresses to consist of three members, a Treasurer, and such others as may be required under any by-laws hereafter adopted, and whose duties shall be therein defined.

Ninth. That all the foregoing officers shall be elected by this meeting, to serve for one year, except the Committee on Addresses, which shall be appointed by the

President.

Tenth. That the President, or, in his absence, the Vice President, or, in the absence of both, the Corresponding or Recording Secretary, is authorized to convene a meet of the president of the presi ing of this Association whenever it may be deemed ne-

H. J. BRENT, ESQ. EDITOR.

THE NATIONAL MAGAZINE AND REPUBLICAN RE-VIEW will be published in the city of Washington, Dis-trict of Columbia, on the 1st day of January next, and de liveres monthly in all parts of the United States, devoted exclusively to the advancement of the great principles of the Whig party, and the encouragement of literature and The experience of the past year has confirmed in the

It cannot be doubted that the present crisis demands the publication of a work calculated to infuse and cheuiate true and nonest political information, and to counter act the direful influence ex ried by a monthly periodica of a similar nature published in this city, under the us-pices, and bearing the name of the aelf-styled Democracy of the present day, advocating measures which, if success-.ul, are destined to moulder to ruins the fabrick of our noble Constitution, by placing constructions on it to suit the captice and advance the reachings of a corrupt am

The union of such principles with a general literature as have insulted the common sense and honesty of the country, by proclaiming the "Martyrdom of Cilley," rendered in a manner more detestable from the insidious way in which they are combned, tends directly to the disorganization of all that, as Americans, should be held most sacred. This combination is calculated to secure them a circulation in quarters to which they might not otherwise penetrate, as well as from a certain deceptive air of high-toned philanthropy and expansive liberality of views, with which they are artifully able to invest themserves, for the purpose of stealing their way into the heads through the meanspectic hear's of that class on which depends the destiny and hopes of the nation—its you given. Whilst the mor experienced sugarity of older heads can never hesitate a moment in recognising the real naked deformity of these principles of modern Rade ansu, under all the fair seeming disguises they may assume, yet to the young they are reprete with a subtle he most pernicious character.

The National Magazine and Republican Review is designed, and will be conducted with these and other high important considerations in view, calculated to correct unsconstructions, and to incuteate the correct political principles on which are based the views and practice of the great Republican Whig party, as well as for the encouragement and maintenance of genuine polite literature. THE METROPOLITAN CHURCHMA

REV. PHILIP SLAUGHTER, EDITOR. When a Minister of the Lord Jesus Christ ceases to preach the Gospel, a decent respect for the opinions of he Church and the world requires that he should declare the causes which impel him to take this step. In the present case the Editor was arrested in his ministerial functions by the hand of disease, and his voice hushed by the precept of the physician. He is driven, therefore, by an imperious necessity to do comething for the support of his family. Shall he go back to the world and resume his secular pursuits? Most secular occupations would be as incompatible with the state of his health, as revolting to his feelings and principles.

The only alternative, then, is to adopt that mode of life which is most kindred to his profession and which, next to the living voice of the preacher, seems to be the most fitting instrument to promote the gloop of God, and the happiness of his creatures. In his judgment a religious, ress is that instrument—the press being confessed by one of the mightiest levers that moves this noral world the has chosen Washington as the locality of this press WHEN a Minister of the Lord Jesus Christ ceases to

He has chosen Washington as the tocality of this press or various reasons. It is a centre from whence roads and canals radiate to every point in our extensive territory, allording opportunities of easy and speedy commu-nication with every diocesce in the Union. 2dly, as the political metropolis of this great Notion, it is the source of mighty moral influences for evil or its good. Every inerest in the country is beginning to appreciate the importance of this fact. Newspapers, inagazines, and pambleis, expressing every valiety of opinion, in politics, notals and religion, are daily going forth as missionaries to every State, town, county, and family of this great nation, fixing the principles, and moulding the manners of itscitizens. Under these circumstances he has thought that the Episcopalians of the United States would like to see a press established at this great centre of moral influences, displaying the ensigns of the Gospel, and inscribed with the motio of that Church which was built upon the foundation of the Apostles and Prophets, was cemented with the bloom of the Apostles and Prophets, was cemented foundation of the Apostes and relatives, and which says to the angry surges of error, which are beating against her bulwarks, and battering down the walls of other so-

As to the peculiar view of the Editor in Religion, it is enough to say that he is a Minister of the Episcopal Church, and that it will be his continual aim to maintain that Church in her integrity, to exhibit, illustrate, and defend her distinctive features, and to hand her down to our children inviolate, as we received his rom our fathers.
